

Tivetshall Parish Council

## Clerks Report

It seems a while since I wrote my last report in July as the council does not meet in August but things still need doing.

The main item to report on is our recent meeting regarding the speeding issues on Station Road, Green Lane and around the school and The Street and the meeting was with Adam Mayo from highways, County Councillor Barry Duffin and District Councillor Martin Wilby along with your councillors and two parishioners. It was a great meeting with many items discussed and issues raised. The main outcome is that it was agreed that the area around the school would be reduced to a 20 mph and new electronic signage would be erected to show this especially at school times. It was also agreed that new normal signage would be erected around the dangerous area from The Street to School Road. Unfortunately, we could not get a speed reduction to either 50mph or 40mph on station road but it has been agreed this will continue to be monitored along with green lane.

We now have our own Speed Awareness machine making it easier to get monthly data to send to the police when we have downloaded the data and we are also looking at 2 new spots to collate the data too. Dudley is doing a great job on this.

We are still awaiting news to see if we have the grant for the pond area and a decision is due any time soon so watch this space.

I am still attending the Tea Junction and am pleased to answer any questions parishioners have and to show them how we report things and how we check many things. I am also assisted by Councillor Sandra l'Anson at the event.

Good news on the Neighbourhood plan is we have managed to secure another grant to complete this from Groundwork of £1859.00 which really is a help and we thank Councillor Alyson Read for her work on this.

I have also sent our details for the new Electric Vehicle charging points at the village hall via the new SNDC scheme and we hope to be successful.

Finally, we have reported many issues to highways and we hope they will be fixed by the time we meet again.

## **Handyman's Report**

Our new handyman Nick is currently undertaking many of the jobs around the Parish and has also attended his play area training along with fixing up the parish benches and other jobs around the parish that you will notice the work is of a very high standard.
